

Complaints Procedure for Parents

Preface

Every customer (parent/carer) who uses the services of Servicebureau Kinderopvang (the Childcare Service Bureau) and the services of our affiliated childcare locations (Kinderstad, Sterre Kinderopvang, Kindercrèche, Horizon Kinderopvang, Peuterdorp and Kinderopvang Thuis) has the right to file a complaint if the service is unsatisfactory.

This is regulated by law: [Wet Kwaliteit, klachten en geschillen zorg \(Wkkgz\)](#) (the Care Quality, Complaints and Disputes Act (Wkkgz)).

If a customer has a complaint, two routes may be followed: the internal and external route.

1. Internal means that the customer tries to be heard within the organization.
2. External means that the customer submits their complaint to Landelijke Geschillencommissie Kinderopvang (the National Disputes Committee for Childcare) after first using the internal route. Parents' committees may submit complaints directly.

Objective

This regulation describes the working method for handling and registering customer complaints. We strive to resolve complaints from individual customers and groups to everyone's satisfaction. In addition, the complaints procedure offers the possibility to work systematically on quality improvement for the entire organization.

Providing Information

In order to assess the complaint, the Director can obtain further information from the complainant, the person who is the subject of the complaint, the Servicebureau Kinderopvang and the childcare centers as well as third parties. The consent of those involved is required to obtain information from third parties. The Director undertakes to treat all information relating to the complaint respectfully and to ensure confidentiality. We handle the personal data shared with us carefully and in accordance with the General Data Protection Regulation (GDPR). We explain how we do this in our Cookie and Privacy Statement, which can be found on the website of our location. If relevant, complaints are handled by the Director in close consultation with the Board of Directors.

Right of Inspection

The complainant, the employee concerned and the organisation are given the opportunity to see all documents relating to the complaint.

Confidentiality

Everyone who is involved in the implementation of a complaints procedure and who thereby obtains access to information that is confidential, is obliged to maintain its confidentiality.

Periodic Reporting

Complaints are registered per calendar year and stored at location /department level in a complaint file of the Director's own location or department. The complaints are regularly discussed by the Director with the Board of Directors

The Director prepares an anonymous department or location report annually. This report is made public and is presented to the works council, parent committees and the Board of Directors. The complaint file is made anonymous at the end of the first quarter of the following year and sent to the GGD childcare inspector.

Internal Complaints Procedure

Firstly, the complainant addresses the employee concerned with the complaint when it concerns the employee's behavior, what happened in the group or incorrect administrative services. The employee concerned tries to resolve the complaint in a satisfactory manner in consultation with the complainant. They may take necessary measures - in consultation with the Director - to resolve the complaint. They make a note of this on the 'Verbal complaints report form' and hand it over to the Director. If the complaint and the conversation lead to a change in specific agreements of childcare, the employee will record this in the child file.

After handling the complaint, the Director signs the verbal complaints report form and files the form at the location or department.

If the complaint is not resolved to the satisfaction of the parent, they may submit the complaint in writing to the Director using the Service/Complaints form.

The Director conducts interviews with the employee(s) and parents concerned. They will then take the necessary measures to resolve the complaint and will note it on the Service/Complaint form. If appropriate to the complaint and the situation, the complainant may receive written feedback, which the Director determines in consultation with the complainant.

After handling the complaint, the Director signs the Service / Complaint form and files the form on location or department. The intention is for the complaint to be settled satisfactorily within a few weeks.

If the complaint is not resolved to the satisfaction of the complainant, they may submit the complaint in writing to the Board of Directors. If the complainant so desires, the Director can forward the Service / Complaint form to the Board of Directors.

The Board of Directors will then handle the complaint. The complainant will be sent an acknowledgment of receipt. Depending on the nature of the complaint, the Board of Directors will conduct an internal investigation and decide on follow-up actions. All this in close consultation with the Director.

No longer than six weeks after submission of the Service/Complaint Form on location, the Board of Directors will inform the complainant in writing of its decision and will explain any follow-up actions. All this will be copied to the Director. If the term is exceeded, the complainant will be informed in good time. If the complainant is satisfied, the procedure is closed.

If the complainant is not satisfied, the Board of Directors will point out the option of submitting the complaint to the Geschillencommissie Kinderopvang.

The handling of a formal complaint through the Service/Complaint form via the internal complaints procedure takes a maximum of six weeks.

When the complaint has been dealt with, the Service/Complaint form is archived by the Director on location and processed in the complaint report.

Any verbal or written complaints are periodically discussed by the Director at the relevant location or department, and also during progress meetings with the Executive Board. Follow-up actions are planned if necessary.

External Complaints Procedure

If the complaint is not resolved within six weeks or if the customer is not satisfied with the decision of the Director or Board of Directors, or if he prefers independent treatment, the complainant may turn to the Geschillencommissie Kinderopvang.

ATTENTION: Parent committees can submit disputes directly to the Geschillencommissie Kinderopvang.

Childcare Disputes Committee

All our locations are mandatorily ([Childcare Act art 1.57b](#)) affiliated with the Geschillencommissie Kinderopvang. The Geschillencommissie Kinderopvang is open to parents who use daycare, out-of-school care and childminder care. And for parent committees in disputes between a partner and the parent committee regarding decision-making by a partner and powers of the parent committee as referred to in [Article 1.60 of the Childcare Act](#). There is a (low) financial barrier and the disputes must be related to the general terms and conditions.

The basic principle for complaints from individual parents is that before submitting a dispute to the Geschillencommissie Kinderopvang, the internal complaints procedure is followed first. This does not apply to parent committees.

A decision of the Geschillencommissie Kinderopvang is binding.

Prior to the handling of a dispute by the Geschillencommissie Kinderopvang, it is possible to resolve the complaint with the support of a Landelijk Loket (National Mediator). Depending on the nature of the complaint and the wishes of the parent/parental committee and partners, an attempt is made to resolve the complaint via the mediator. This is done with the aid of general and procedural information, targeted advice, and intervention or mediation.
